

# Better Together

## Together We Make A Difference Through Ministry Shares

Because you were faithful in your ministry giving ... churches can apply for grants for parish development and social ministries as well as for health-related ministries.

Our Shares of Ministry provides significant funding for churches who want to try new things! Through our Missional Board, start-up funds are available in declining amounts over a three years' time. Some successful grants included multi-cultural ministries, street ministries, food banks, trucker ministries, community development, Bible distribution, as well as many other outstanding ministries and missions.

Health Ministries grants have paid for parish nurse training, medical equipment needed to start parish nurse ministries, health-related prevention/education programs, health fairs, AED's and AED/CPR trainings.

Other conference grant programs are funded by the special denominational offerings or through gifts to the Advance.
