

Better Together

Together We Make A Difference Through Ministry Shares

John Wesley's passion for education is reflected in the numbers of schools and colleges started by his followers around the world.

Because you were faithful in your ministry giving ... the Susquehanna Conference is able to support education by offering scholarships and loans to United Methodist students.

Students who attend United Methodist related colleges and universities can apply online through the General Board of Higher Education and Ministry for Conference Merit Scholarships as well as for a number of denominational scholarships. Even students who attend public or other private colleges and universities may apply for denominational scholarships through the General Board.

The Student Day Offering taken in churches each fall helps to fund these scholarships. Dozens of Susquehanna Conference students benefit annually thanks to your generous giving.
