

TWO IMPORTANT TOOLS FOR MINISTRY TO HELP GROW YOUR CHURCH!

Vital Signs continues to be an important tool to help us evaluate the health of our local church ministry. More than just recording numbers, Vital Signs can help us spot trends that can keep us focused on the most important parts of our ministry!

For those pastors and churches now celebrating new beginnings, please remember to change the email addresses of those who are to receive the weekly reporting emails if you haven't done so already. Feel free to call or email me if you need assistance. You can also find help on our conference website... look for Vital Signs under the resource tab.

Also, remember, filing our Vital Signs is an expectation of our covenant. If you are not currently doing so, this would be a great time to start!! Don't worry about the past, just begin now. Remember, this tool helps you track the health of your church and can alert you to important trends!!

MissionInsite may be the best tool available to help local churches identify missional needs and opportunities! This valuable service is free to all of our congregations. Just register and begin to draw upon this vital source of information. If you think MissionInsite is just numbers, you don't know... well, MissionInsite!

I also can provide you and your church, cluster or district with help obtaining reports, unpacking the data and visioning possibilities. Just call or email me and we can set up whatever you need to get started using MissionInsite. Registration information is located on the back of this flyer or call the Conference Office or me for our Conference agency number needed for registration! With that number in hand, go to missionInsite.com to register (See How to Register Info attached)
