

February 2018

We are very excited for this year's Summer Adventure Program beginning June 11, 2018. Our goal is to serve 80 inner-city children ranging in ages three to twelve. In addition, we are expanding the educational component to include certified teachers who will create and execute a STEM and Reading curriculum. The lessons/activities will include the latest STEM/STEAM (Science, Technology, Engineering, Arts, and Math) instruction.

To make our vision happen we are in need of the following items:

- STEM/Educational Games
- Manipulatives
- Puzzles
- Sensory Play Items
- Legos
- Dramatic Play Items
- Books
- Small Bean Bags Chairs
- Art supplies – Kid Smocks, Paint, Paintbrushes, Crayons

Lastly, any churches wanting to serve lunch to our summer camp kiddos please feel free to contact Stephanie Evans at sevans@neighborhoodcenterumc.org or 717-233-6541.

Thank you for supporting the Neighborhood Center of the United Methodist Church!
