# Ramps (Interior and Exterior)

Church/program:

Date:

| Enter "x" under the Yes or No column for the following items: | Yes | No | Actions Taken |
|---|---|---|---|
| Exterior ramp surfaces are slip-resistant construction (brushed concrete or non-slip tile). | | | |
| Ramps that extend into the parking lot are painted to contrast with pavement. | | | |
| If ramps are painted for contrast, a slip-resistant paint is used (with grit). | | | |
| Interior ramps surfaces are non-slip (secured carpet or slip-resistant tile). | | | |
| Ramps are flat vs. concave. | | | |
| A curb cut or ramp is used to accommodate handicap accessibility. | | | |
