Telling Our Stories Theme Summary: "What does the Lord require of us but to do justice…." Join us as panelists from local units share how they are addressing the social justice priorities of climate justice—just energy for all, interrupting the school-to-prison pipeline, and racial justice. Learn how to turn your concern into action. Following a Q&A there will be a time for table talk when you can share stories of what you do in your local units and maybe take home a few ideas!

Registration Fee of $15 covers lunch, programs, and resources. Costs are waived for first time Conference Annual Attendees, but a registration form must be completed.
